

# Reception home learning pack Burlington Infant School

Week beginning 11<sup>th</sup> May 2020

# Reading

- You could read your school reading book or your grown-ups can find some free books for you to read here:

<https://home.oxfordowl.co.uk/books/free-ebooks/>

\*You have to register but it is free. When you go on to the 'free ebook library' click the drop down that says 'series' and select 'Read, Write Inc,' Then 'sound blending' or 'Red books' or go to 'levels' and select book band 1: pink (most children will be working at these levels).

See below:

# The Three Billy Goats Gruff

Please follow the link below to watch the story of The Three Billy Goats Gruff or search in google for The Three Billy Goats Gruff.

<https://www.youtube.com/watch?v=3QzT1sq6kCY>

The Three Billy Goats Gruff | Fairy Tales | Gigglebox - YouTube

YouTube · Gigglebox

# Discuss the story together

- Talk together about what happened in the story

Here are some questions to ask your child:

- Did you enjoy the story?
- What was your favourite part?
- How do you think the little billy goat was feeling when he saw the troll?
- Would you have dared go over the bridge?
- Can you think of other words to describe the troll?
- Why did the goats want to cross the river?

shutterstock · 238618450

# Now read these words together and discuss what they mean

- Meadow
- Lush
- Hooves
- Troll
- River
- Delicious
- Bridge

- Can you retell the story to someone in your family? You could make some puppets or a story map to help you. Can you use different voices for the different characters?

- Can you draw a picture of either the troll from the story, or design your own troll?
- When you have drawn your troll can you try to write some words to describe it?
- Can you draw a picture from the story? You could draw the fields and the bridge with the troll under the bridge and the goats in the field. Can you label it?

# Spot The Difference

There are 6 differences in the pictures below, can you find them?

**10**

# Maths

**11**

Please continue to work on counting, ordering and recognising numbers to 20

This week your challenge is to be able to say the number that is one less than a given number.

(to 20)

**12**

**16**

**19**

**14**

**17**

**13**

**15**

**18**

**20**

# 1 less

0 1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20

Use your fingers, some objects or the number line above to learn about 1 less.

To find one less we have to take away which also means we have to go back down the number line.

Can you practise counting backwards from 10?

1 less than a number is simply the number that comes before the number said.

One less than 5 is 4 - it is the number that came immediately before the number you have said. You are getting rid of one thing, you will have 1 less item. So if you had 4 apples and you ate 1 you would have 1 less which would mean you have 3 left .

# Some activities for 1 less

- Roll a dice, what number have you rolled? Now say the number that is one less than this number. (You could ask a grown-up to help you write the number).
- Have a pretend picnic. Each have a given number of objects. Take 1 away - how many objects have you now got left?
- Make your own number line using chalks - have your grown up tell you which number to start on then find one less by jumping back one.
- Build a tower with a given number of blocks - now build a tower with one less block than the first.

- Can you sing some songs that count backwards such as; 5 little speckled frogs, 5 little men in a flying saucer, 5 currant buns, 10 little monkeys jumping on the bed.

# Can you solve these problems?

- Can you find out what is 1 less than 12?
- What is 1 less than 1?
- What is 1 less than 20?
- You had 6 strawberries but you ate 1, how many have you now got?
- You had 9 toy cars but then you gave one to your friend, how many have you got left?
- Can you have a go at one or both of the sheets on the next slides with some help from your grown-up?

# Minibeast One Less

Write down what is one less in the circles.

# 1 Less Than

Use this number line to help the caterpillar crawl 1 less than...

1 2 3 4 5 6 7 8 9 10

11 12 13 14 15 16 17 18 19 20

1 less than 3 =

1 less than 4 =

1 less than 8 =

1 less than 2 =

1 less than 7 =

1 less than 9 =

Now try  
these!

1 less than 1 =

1 less than 12 =

1 less than 17 =

1 less than 18 =

1 less than 16 =

1 less than 13 =

# Other activities to try

- Can you make a bridge outside and act out the story with your family?
- Can you make a troll? - this could be from boxes or it could be a stick puppet.
- Can you make a bridge using some blocks or Lego that you have at home?
- Thinking about how else the goats could cross the river, can you make a raft/boat that can float? Test it in the bath/water tray/paddling pool (with a grown-up of course).

# Number Bridge

Can you write the numbers to cross over the bridge?

- Can you make a goat or troll mask or head band?
- Can you paint some of the characters from the story?
- Can you move like a troll/goat?

- Can you order 3 things from your house by size? (small, medium, large)

- Can you think of some other words to describe size?
